### An expert's know-how

World's N°1 company in the field of fingerprint-based biometrics, part of the large high technology SAFRAN Group and with innovative capabilities acknowledged worldwide, Morpho has acquired a thorough experience in designing and manufacturing biometric terminals (over 100,000 slap fingerprint units and over 3,000,000 fingerprint sensors sold). With more than 1 billion people recorded across the globe, our technical teams know the importance of image quality, when enrolling applicants.

MorphoTop has been designed to capture 4 fingers simultaneously or capture rolled fingerprints.

### Easy to use and to set-up

MorphoTop can connect to a computer with only one usb connection, which will allow power supply and high speed data transfer.

The scanner can be easily integrated in order to have either a booking station for police market applications or an enrollment station for civil use cases.

Morpho offers as a service to MorphoTop, software development kits:

- one to pilot the product and the fingerprint capture
- one which ensures the good capture of fingerprint sequences according to various enrollment scenarios adapted called MorphoBop.
